

Endorsement
of the
**Bonn Declaration on Freedom of Scientific Research –
A Common Core Principle of the European Research Area and its
International Partners**

Brazil welcomes and fully supports the principles and goals expressed in the Bonn Declaration on Freedom of Scientific Research as prepared and signed by EU Member States on the occasion of the Ministerial Conference on the European Research Area in Bonn on 20 October 2020, hosted by the German Presidency of the Council of the European Union.

As the EU is an important partner in research and innovation to us, we support the signatories in their effort to strengthen freedom of scientific research as an element of international cooperation.

Brazil supports the values of the Bonn Declaration on Freedom of Scientific Research and welcomes its intention to make freedom of scientific research a base for international cooperation in science, research and innovation, subject to the national legislation applicable to the country.
